CHEMICAL foam mattresses outgas *forever* (did you know this?). Dozens of carcinogens and hazardous toxins contaminate your air as you innocently sleep, **including toluene, which can damage the nerves.**

Meanwhile, our organic mattresses smell delicious and natural. We'll help you find your ideal softness.

**Here's how the offer works:**

Come in to our Showroom and experience our Savvy Rest® mattresses for yourself. Or log onto the Savvy Rest web site at:

**www.SavvyRest.com**

Whatever the pricing is on the site, you can deduct **25% OFF any mattress** with our EXCLUSIVE discount to the public.

. . . Sweet dreams . . . . .
